My dear Dedic:- Just now getting at
letter that I've been trying to find time
for, for days. Grandma Coffman and I
have both been busy as bees. The chil-
dren take lots of time & besides regular
work we have been putting up fruit -
peaches, pears, plums & tomatoes - also
pickling some & some potato soup. Did
you ever try canning soup? I made
to get last yr. & find it so convenient
for emergencies &, I think it is very
good too. I'll send my recipe if you'd
like to try it. I am also enclosing some
samples. Some did not turn out well
& some not at all. Mr. Cohen took a
dozen or more but will not develop

them till near xmas time. How he loves
Margaret & took so many sniffs of her.
I am sending our menu for the time
our guests were here. Not elaborate
but we tried to have everything good.
And they seemed to enjoy it, too.

Well Mrs. C. is a great help to me.
Gets up & goes to work early and is so
sot o' morn'ly. She stays & gets dinner
& takes care of babies & I go to church
Sun. morn. & she goes in evening. To-night
they have all gone to Hollywood to church.
Margaret is asleep in hammock and Mary
in go-cart. soon 's time to go in as
it is quite cool. I got George's sweater
and put it on. It has done me so much
good. I would like to have Ida make
mine soon & shall ask her to but
I do not know what she will say. If
she "does not have time" I'll do it my-

self or get a man's & return this one. We
hardly knew George was here. I did not
think of his going so early. Wish I could
have sent a basket of the sandy peach-
es. they are fine. Mr S. will get a box of
clings this week & that is all I'll put up.
We are going to drive up to Laurel Canyon
to-morrow & eat our lunch & come home
early. Had two chickens to-day & kept out
enough for the party. A holiday to-morrow.
Can't the Grady's join us?

George was talking about your
northern ranch. & Mr S. said when
you moved up there we would go to
see you. He never speaks of going
any place so I feel in hopes we may
get a vacation to-gether some time.

Well, the quarantine has been lifted
from that dreadful disease but of
course people are expected to be
very careful. I do hope it is under control.

I wish I could tell you how fine
I feel. No aches or pains (except
tender spots in lungs) + not so many
weak spells. Gaining flesh but look
a little thin in face but getting more
color altho some one is kind enough
to tell me every time I go any place
that I "look pretty pale". But I have
looked paler, don't you think? Mrs.
Coffman tho I looked bad and is sur-
prised at my appetite. It is great.

I never heard from one of your
"ads" or Ida's or mine or Mr Sherman's
What do you think of that! We
answered more than a dozen. I
guess we are fixed for quite a
while now. Let me hear how you
are. Love to all - Sister Ga -
